

WDC v0.1.2 Academic PDF Layout Audit v0.1

Kotov Ivan, Bruxelles, Belgique 2026

Self-Evo WDC v0.1.2

Source file:
controls/audits/PDF_LAYOUT_AUDIT_v0_1.md

Academic PDF rendering from Markdown source. Content-level claims are unchanged.

Boundary: this PDF rendering does not create a conformance certificate, deployment authorization, witness-independence certification, implementation claim, or live self-evolution permission.

WDC v0.1.2 Academic PDF Layout Audit v0.1

Status: PDF layout audit / package-control artifact

Author: Kotov Ivan, Bruxelles, Belgique 2026

Generated: 2026-06-27T20:21:18Z

Scope

This audit covers the academic PDF renderings generated from Markdown sources for the Self-Evo WDC v0.1.2 Zenodo staging package, including license PDFs and the audit rendering itself.

Verification performed

- PDF files checked with pdftinfo: 59
- Total rendered pages reported by PDF metadata: 428
- PDF metadata/open errors: 0
- Representative visual render check performed for the long fixture delta, one review record, and the package assembly manifest.
- PDFs are generated with a conservative ReportLab layout, wrapped body text, wrapped code/table blocks, page headers, page footers, and author attribution on the title page.

Boundary

The PDFs are convenience renderings. They do not replace the Markdown sources and do not create conformance, deployment, implementation, witness-independence, or runtime claims.

Error list

No PDF open/page-count errors detected.
