Boundary: this PDF rendering does not create a conformance certificate, deployment authorization, witness-independence certification, implementation claim, or live self-evolution permission.

SEFX-WDC-DELTA Patch Notes v0.1.2

Patch notes for 08_Self_Evo_Conformance_Fixture_Pack_WDC_Delta_v0_1_2_v0_1_2.md

Status: Patch notes / append-first correction record

Date: 2026-06-27

Patch notes ID: SEFX_WDC_DELTA_PATCH_NOTES_v0_1_2

Applies to: 08_Self_Evo_Conformance_Fixture_Pack_WDC_Delta_v0_1_2_v0_1_2.md

Supersedes: 08_Self_Evo_Conformance_Fixture_Pack_WDC_Delta_v0_1_2_v0_1_1.md

Reason: close SEFX-WDC-DELTA-REV-F2 from SEFX_WDC_DELTA_REVIEW_RECORD_v0_1_1.

0. Reviewed input

SEFX_WDC_DELTA_REVIEW_RECORD_v0_1_1 reported:

```
Result: PASS_WITH_LIMITS
Prior findings closed: SEFX-WDC-DELTA-REV-F1, SEFX-WDC-DELTA-REV-N1
New finding: SEFX-WDC-DELTA-REV-F2
Issue: §18.1 heading was written as ## 18.1 instead of ### 18.1
```

The review explicitly stated that the remaining issue was a minor heading-level regression and that fixture content, harmonization, and package-assembly gate remained intact.

1. Change summary

This patch makes one required structural correction:

```
- ## 18.1 Review-finding closure map for v0.1.1
+ ### 18.1 Review-finding closure map for v0.1.1
```

It also updates the document metadata from append-first corrected revision v0.1.1 to v0.1.2, adds a v0.1.2 correction note, and adds §18.2 Review-finding closure map for v0.1.2 recording closure of SEFX-WDC-DELTA-REV-F2.

2. Findings closed

```
| Finding | Status | Closure surface |
|---|---|---|
| `SEFX-WDC-DELTA-REV-F2` | `CLOSED BY TEXT` | `§18.1` heading corrected from `##` to `###`; v0.1.2
correction note added; `§18.2` closure map added. |
```

Previously closed findings remain closed:

```
| Finding | Status retained |
|---|---|
| `SEFX-WDC-DELTA-REV-F1` | `CLOSED` |
| `SEFX-WDC-DELTA-REV-N1` | `CLOSED` |
```

3. No semantic change statement

This patch does not change:

```
fixture inputs
fixture identifiers
fixture-family aliases
expected canonical results
severities
WDC annotations
rule mappings
alias-regression logic
```

```
coverage matrix rows
strictest-result aggregation
PASS_WITH_LIMITS prohibition
safety / data boundary
package-assembly gate
SELC-WDC-0Q-005 tracking
```

The change is heading-level plus correction-record metadata.

4. Output artifact

```
output_artifact: &quot;08_Self_Evo_Conformance_Fixture_Pack_WDC_Delta_v0_1_2_v0_1_2.md&quot;;
sha256: &quot;4aa5b85e0a0af4c06fc56f30ba355ec6c378133fe3d70caee352fb93b3944389&quot;;
line_count: 1419
expected_next_review: &quot;SEFX_WDC_DELTA_REVIEW_RECORD_v0_1_2.md&quot;;
expected_next_verdict: &quot;PASS if no new regression is introduced&quot;;
```

5. Boundary

This patch note is evidence of a text correction. It is not integration, approval, conformance certification, deployment authorization, memory write, or self-evolution permission.
