SELF-EVO WDC v0.1.2 Package Assembly Manifest Patch Notes v0.1.4

Patch notes for SELF_EVO_WDC_v0_1_2_PACKAGE_ASSEMBLY_MANIFEST_v0_1_4.md

Status: Patch notes / package-control artifact

Date: 2026-06-27

Patch ID: SELF_EVO_WDC_v0_1_2_PACKAGE_ASSEMBLY_MANIFEST_PATCH_NOTES_v0_1_4

Patched artifact: SELF_EVO_WDC_v0_1_2_PACKAGE_ASSEMBLY_MANIFEST_v0_1_4.md

Patch class: append-first gate-state propagation

Primary change: propagate WDC-ASM-003 closure into the manifest state

1. Purpose

These patch notes record the v0.1.4 manifest update.

The prior manifest v0.1.3 had converged to PASS as an artifact and already propagated WDC-ASM-002 closure.

After that, the WDC-ASM-003 projection verification candidate received PASS, and the separate WDC-ASM-003 c/a closure record received documentary-consistency PASS.

This patch updates the manifest so that the package map reflects that state.

2. Source records consumed

```
| Role | File | SHA-256 | Result / state |
|---|---|---|---|
| Prior manifest | `SELF_EVO_WDC_v0_1_2_PACKAGE_ASSEMBLY_MANIFEST_v0_1_3.md` |
`aa5fb978000d96df74c03dc735bcd1c8170b9d34644e85b8297fd114759f917` | PASS as artifact |
| Prior manifest review | `SELF_EVO_WDC_v0_1_2_PACKAGE_ASSEMBLY_REVIEW_RECORD_v0_1_3.md` |
`580285e99d9cba2d7bbd31120a42b614b3886ecb492d5886eb05dfala2def3dd` | PASS |
| Projection verification record | `WDC_ASM_003_WRCG_CST_PROJECTION_VERIFICATION_RECORD_v0_1.md` |
`39a686045bf04a76e9c2941f68a7b390bfb265b936db0d80b5601d4ae927c8f3` | candidate SOUND |
| Projection verification review | `WDC_ASM_003_WRCG_CST_PROJECTION_VERIFICATION_REVIEW_RECORD_v0_1.md`

| Gate closure record | `WDC_ASM_003_GATE_CLOSURE_RECORD_v0_1.md` |
`1a91abea28f6ab41b0df2424c3e800e9a9d6aee2e37ed4acf29e0fffd5516273` | `WDC-ASM-003` CLOSED by c/a |
| Closure documentary review | `WDC_ASM_003_GATE_CLOSURE_REVIEW_RECORD_v0_1.md` |
`2adb89336aad2ad7417388c892bf373237a56d4c32f64f137360e9908dc8c1d` | PASS |
```

3. Changes made

3.1 Header and executive state

Updated the manifest metadata to v0.1.4 and added an append-first propagation note:

```
WDC-ASM-003: CLOSED
projection_verified: true
```

The header now supersedes v0.1.3 by hash.

3.2 Source-basis additions

Added §3.2.2 Gate-state propagation from WDC-ASM-003, including:

```
projection total: true
lossless through annotation / route / sidecar: true
```

```
fail-closed behavior: true
unprojectable values found: []
```

Added WDC-ASM-003 records to §3.4 Package-control review and gate records.

3.3 Manifest gate state

Updated the package gate table:

```
WDC-ASM-002: CLOSED
WDC-ASM-003: CLOSED
WDC-ASM-001/004/005/006: pending
```

Updated the machine-readable summary:

```
projection_verification:
  wdc_asm_003_closed: true
  projection_verified: true
package_gates:
  WDC_ASM_003: &quot;closed&quot;
```

3.4 Release/nonclaim boundary

The release boundary remains unchanged:

```
package_assembled: false
public_release: false
conformance_certificate: false
deployment_authorization: false
witness_independence_certification: false
```

4. What did not change

This patch does not alter:

```
03 harmonized hash: 5a7e6af6...
patch-index harmonized hash: af01b1b4...
07 source hash: 804a8e34...
WDC-ASM-002 closure state: CLOSED
WDC-ASM-001 state: pending
WDC-ASM-004 state: pending
WDC-ASM-005 state: pending
WDC-ASM-006 state: pending
```

It does not perform:

```
fixture execution;
boundary scan;
final assembly;
public release;
DOI deposit;
conformance certification;
deployment authorization;
witness-independence certification.
```

5. Next review target

The next review artifact should be:

```
SELF_EVO_WDC_v0_1_2_PACKAGE_ASSEMBLY_REVIEW_RECORD_v0_1_4.md
```

It should verify:

```
WDC-ASM-003 is correctly recorded as CLOSED;
projection_verified is true;
WDC-ASM-001/004/005/006 remain pending;
nonclaim boundaries remain intact;
no package assembly or release is implied.
```

6. Closing

This patch is a manifest propagation patch.

It records that WDC-ASM-003 has been closed by c/a package-control decision after a clean projection verification review, and that the manifest now carries that state honestly.

```
WDC-ASM-002: CLOSED
WDC-ASM-003: CLOSED
WDC-ASM-001/004/005/006: pending
release: not authorized
```
