

Self-Evo WDC v0.1.2 Package Assembly Manifest v0.1.5

Kotov Ivan, Bruxelles, Belgique 2026

Self-Evo WDC v0.1.2

Source file:

package_control/SELF_EVO_WDC_v0_1_2_PACKAGE_ASSEMBLY_MANIFEST_v0_1_5.md

Academic PDF rendering from Markdown source. Content-level claims are unchanged.

Boundary: this PDF rendering does not create a conformance certificate, deployment authorization, witness-independence certification, implementation claim, or live self-evolution permission.

Self-Evo WDC v0.1.2 Package Assembly Manifest v0.1.5

Final local assembly manifest for the Witness Dependency Capture release-candidate package

Status: Final local package-assembly manifest / append-first v0.1.5

Date: 2026-06-27T20:10:00Z

Package: Self-Evo WDC v0.1.2

Author: Kotov Ivan, Bruxelles, Belgique, 2026

Parent release: Self-Evo Document Package v0.1.1, DOI 10.5281/zenodo.20938909

Manifest ID: SELF_EVO_WDC_v0_1_2_PACKAGE_ASSEMBLY_MANIFEST_v0_1_5

Supersedes: SELF_EVO_WDC_v0_1_2_PACKAGE_ASSEMBLY_MANIFEST_v0_1_4.md (sha256: ad9adcddff485f28f78f4d741add275232a0d86413d45c14277a2bb5286c4301)

Primary boundary: this manifest records local document-package assembly. It is not a public release, not a DOI deposit, not conformance certification, not deployment authorization, and not witness-independence certification.

0. Executive state

Self-Evo WDC v0.1.2 has moved from addendum to assembled local document package.

All affected-document deltas are at review-level PASS.

The package-control gates now read:

WDC-ASM-001 — CLOSED_LOCAL_ASSEMBLY
WDC-ASM-002 — CLOSED
WDC-ASM-003 — CLOSED
WDC-ASM-004 — CLOSED
WDC-ASM-005 — CLOSED
WDC-ASM-006 — CLOSED_AS_RETAINED

This does not create a public release. It creates a local assembled package suitable for final external placement work.

1. Corpus bridge set

1.1 Explicit bridge: $c = a + b$

The assembled WDC package belongs to b: documents, manifests, review records, gate records, patch notes, checksums, and package-control routes. It serves c by preserving the conditions under which witness-dependency capture is visible and challengeable.

The package does not become c. It does not speak as a. It does not authorize a system to evolve itself.

1.2 Quiet bridge I — information theory

A final package is a high-compression object. The danger is that the compression hides unresolved implementation work or turns evidence into certification. This manifest therefore carries hashes, gate states, nonclaims, and retained open issues explicitly so the package remains information-preserving.

1.3 Quiet bridge II — cybernetics

The assembly manifest is the package's control-panel state. If a gate closes but the panel still shows pending, or if a gate remains open but the panel shows green, the control loop lies. This manifest

synchronizes the WDC gate state with the assembled package.

1.4 Quiet bridge III — physiology

A healed wound and a discharged patient are not the same thing. The WDC package has repaired its document-level seams and closed its package-control checks, but implementation and runtime claims remain contraindicated. The assembly is a clean chart, not permission to run.

1.5 Earth paragraph

A handover binder can be complete while the building is not opened to the public. It may contain drawings, inspection records, redlines, punch lists, and sign-offs, yet still say: not commissioned, not occupied, not energized. This manifest is that binder for WDC v0.1.2.

2. Final WDC content artifacts

Label	File	Lines	SHA-256	Status
addendum	SELF_EVO_ADDENDUM_01_Witness_Dependency_Capture_Profile_v0_1_1.md	953		PASS / final selected artifact
patch_index	SELF_EVO_v0_1_2_PATCH_INDEX_v0_1_3.md	855		PASS / final selected artifact
03	03_Self_Evo_Proposal_Packet_Schema_WDC_Delta_v0_1_2_v0_1_2.md	1003		PASS / final selected artifact
04	04_Self_Evo_Local_Checker_Rules_WDC_Delta_v0_1_2_v0_1_1.md	1154		PASS / final selected artifact
05	05_Self_Evo_TRIAD_Sister_Witness_WDC_Delta_v0_1_2_v0_1_1.md	1416		PASS / final selected artifact
07	07_Self_Evo_Anti_Autarky_and_Resource_Gate_WDC_Delta_v0_1_2_v0_1_1.md	1309		PASS / final selected artifact
08	08_Self_Evo_Conformance_Fixture_Pack_WDC_Delta_v0_1_2_v0_1_2.md	1419		PASS / final selected artifact
09	09_Self_Evo_Contradiction_Register_WDC_Delta_v0_1_2_v0_1_1.md	777		PASS / final selected artifact
10	10_Self_Evo_Open_Issues_WDC_Delta_v0_1_2_v0_1_1.md	992		PASS / final selected artifact

3. Gate closure summary

Gate	State	Evidence
WDC-ASM-002	CLOSED	textual harmonization review PASS + WDC_ASM_002_GATE_CLOSURE_RECORD_v0_1.md
WDC-ASM-003	CLOSED	projection verification review PASS + WDC_ASM_003_GATE_CLOSURE_RECORD_v0_1.md
WDC-ASM-004	CLOSED	fixture-surface gate review PASS + WDC_ASM_004_GATE_CLOSURE_RECORD_v0_1.md
WDC-ASM-005	CLOSED	boundary/nonclaim scan review PASS + WDC_ASM_005_GATE_CLOSURE_RECORD_v0_1.md
WDC-ASM-006	CLOSED AS RETAINED	implementation open issues retained in SELF-EVO-10 + WDC_ASM_006_IMPLEMENTATION_OPEN_ISSUES_RETENTION_RECORD_v0_1.md
WDC-ASM-001	CLOSED LOCAL ASSEMBLY	final package directory, SHA256SUMS, JSON manifest, CSV manifest, final assembly record

4. Machine flags

```
package_name: "Self-Evo WDC v0.1.2";
package_state: "assembled_local_document_package";
parent_release_doi: "10.5281/zenodo.20938909";
affected_documents_at_pass: true
annotation_harmonization_verified: true
projection_verified: true
fixture_surface_verified: true
boundary_nonclaim_scan_passed: true
implementation_open_issues_retained: true
package_assembled_local: true
public_release_authorized: false
doi_deposit_authorized: false
conformance_certificate: false
deployment_authorization: false
witness_independence_certification: false
```

```
checker_implementation_certified: false
fixture_runner_executed: false
implementation_ready: false
runtime_self_evolution_authorized: false
autonomous_resource_acquisition_authorized: false
personhood_or_consciousness_claim: false
agi_or_sovereignty_claim: false
```

5. Nonclaim boundary

This assembled local package is not:

1. a public release;
2. a DOI deposit;
3. a conformance certificate;
4. deployment authorization;
5. a safety proof;
6. witness-independence certification;
7. checker implementation certification;
8. fixture runner execution;
9. implementation readiness;
10. memory-write authorization;
11. live/runtime self-evolution permission;
12. autonomous resource-acquisition permission;
13. personhood, consciousness, AGI, or sovereignty claim.

6. Final assembly payload files

The authoritative file-level inventory is `package_control/SELF_EVO_WDC_v0_1_2_FINAL_PACKAGE_MANIFEST.json` and `package_control/SHA256SUMS.txt` in the assembled package directory.

This Markdown manifest is not self-sealing; it is sealed by the package-level SHA256SUMS and external ZIP hash.

7. Closing

```
WDC v0.1.2 local document package assembled.
All document deltas selected for assembly are PASS-level.
WDC-ASM-002/003/004/005 are closed.
WDC-ASM-006 is closed as retained open implementation work.
WDC-ASM-001 is closed as local package assembly.
Public release remains false.
Conformance, deployment, implementation, runtime, and witness-independence claims remain false.
```
